

I am 76yo, have asthma & a bad back, limiting my mobility. I was glad to be able to submit my absentee ballot last November with risk to my health & safety. I was so pleased. I am retired so I otherwise had a freedom that others do not enjoy. I believe that voting is a critical component of citizenship & should be as easy as reasonably possible for EVERYONE.

I would like to advocate for:

1. Automatic registration.
2. Minimum of 7 days of early voting
3. No excuse needed absentee voting (like we just had)
4. Special licensing for vote collectors for the homebound
5. Early collection boxes like we had in front of City Hall
6. Official "Election Day" should be a holiday instead of Columbus Day.
7. Prohibition of any intimidating or harassing behavior

That is all I can think of at the moment.

Thanks for "listening"
